13/Sept/17

In my capacity as chair of the CETRA music club I had the pleasure of meeting with Mr Steve Wren who agreed to teach drums to our young students of the club.

I would like to say that he taught our drum classes in such a professional way that the students attending were taught to such a high standard that they are all becoming drummers of high quality

Even to a standard that our students played on stage at the Rotherhithe festival.

I wanted Steve to stay and continue to teach our students but he sadly had to

Leave us as he was moving from our area

I would like to say that it is hard to find a teacher with such capabilities

And understanding of teaching drums

I would recommend any one who is in need a drum teacher of high quality to consider Steve

As he was far the best at teaching that we have ever used
